agion® Add the Antimicrobial Power of Silver to protect your new hardware!

Agion® silver ion protection is available on any item in satin or distressed lacquered finishes for a **25%** upcharge to the base price of the item. To learn more about Agion®, please visit https://www.sciessent.com.

To add Agion® Protection to your products, simply add a **"G"** to the start of the finish code. The leading **"G"** before the regular finish codes will tell us you want Agion®.

For example: 143 knob in satin chrome (143-26D) has a list price of $24.20 — To order the same item with Agion® protection, change the finish code to G26D and the new item number is 143-G26D with a list price of $30.25 ($24.20 plus 25% upcharge for Agion® protection).

ORDER GUIDE

TWO-TONE/FINISH-CAPABLE HARDWARE

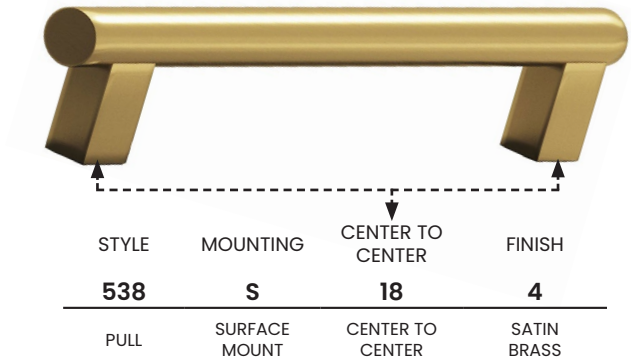

PART NUMBER: 1332-6-15BX10

When ordering two-tone (combination of two finishes) items, FINISH 1 always refers to the part of the item that touches the mounting surface and FINISH 2 always refers to the accent color.

SPECIFYING MOUNTING FOR PULLS

PART NUMBER: 538S-18-4

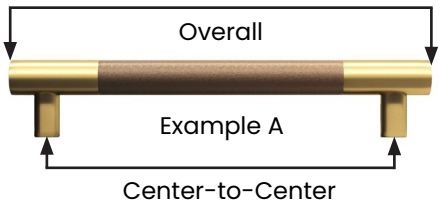

If the pull can be either through bolt, surface, or back-to-back mounted, we will assume you want through-bolt mounting unless told otherwise. In the above example, this pull will be surface mounted, so the mounting type "S" is used. See pages 7–8 for mounting options.

APPLICATION ABBREVIATIONS	
Appliance Pull	AP
Backplate	BP
Cabinet Knob	CK
Cabinet Pull	CP
Door Pull	DP
Edge Pull	EP
Shower Door Knob	SDK
Shower Door Pull	SDP
Towel Bar	TB

HOW TO ORDER CUSTOM-LENGTH COLONIAL BRONZE PULLS

All pulls where **"per-inch"** pricing is offered indicates that the pull can be ordered in custom center-to-center (CtC) and/or overall length dimensions.

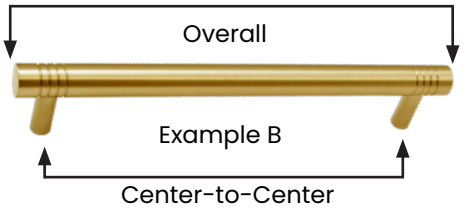

- If only the CtC dimension can be changed (as in Example A below), determine the CtC dimension required. If the CtC is not a whole number, round up to the nearest whole number.
- The list price is determined simply by the rounded-up center dimension of the pull ***times*** the per-inch price.

PRICE for 12" CtC: 12 x (Per-Inch Price) = List Price

PRICE for 12 3/8" CtC: 13 (rounded-up CtC) x (Per-Inch Price)

- If ***both*** the overall length ***and*** center-to-center dimensions can be customized (Example B below), the pricing is a function of the overall length.

PRICE for 12" Overall with 9" CtC: 12 x (Per-Inch Price) = List Price

PRICE 14 1/4" overall with 12 3/8" CtC handle: 15 (rounded-up length) x (Per-Inch Price) = List Price

DOOR AND SHOWER DOOR PULLS: BACK-TO-BACK

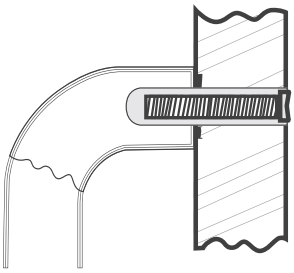

When specifying handles for regular or shower doors, please be sure to provide the following information:

- Thickness of the wood (typically 1 3/8" or 1 3/4" thick) or glass door (typically 5/16", 3/8", or 1/2" thick)
- Diameter of the hole drilled through glass when the application is for a shower door

Terms and Conditions of Sale

Terms

- Net 30 days.
- Interest at a rate of 1.5% per month on invoices over 30 days may be applied.
- Past due accounts will be placed on credit hold. No orders will be processed, nor shipments made until the account is brought within terms. In addition, work on existing orders on the factory floor will be suspended until such time as the account is brought within terms.

Prices

- All prices are in US Dollars.
- Subject to change without notice. Orders will be billed at price in effect when the order is received, except for written quotes specifying otherwise.

MAP Prices

- Colonial's reputation for quality, integrity and honesty is very important to us. As part of this ongoing effort to safeguard our reputation, we have a unilateral Minimum Advertised Price (MAP) policy. If a price for any Colonial Bronze product is included in any advertisement, the price must not be less than 80% of the Suggested Retail Price then in effect. Advertising includes, but is not limited to, printed advertisements, promotional mailers, catalogs, faxes, radio, and all electronic media, including web sites.
- In the event that we are informed the minimum advertised pricing policy has been breached and upon fair and adequate proof, we will issue a written warning reminding the offending party of the policy. Any subsequent breach of the policy by the same party will result in nullification and termination of any previous authorizations and agreements, either verbal or in writing, to resell our products.

Setup Fee, Per-Inch Pricing, and Custom Leather Cutting Die Charges

- A $275.00 list setup fee applies for custom-made items. This does not apply if the customization involves only the center-to-center and/or overall length of a pull.
- **When computing prices for custom length handles using per-inch prices, multiply the price per inch times the overall length, rounded up to the nearest whole inch**. See page 6 for examples and details. Please keep in mind that custom items that are BELOW the overall length of the shortest standard length may still cost more due to the custom nature of the manufacturing process.
- For custom length Tanner's Craft® handles L270, L271, L272, L273, L275, L276, L460, and L711's, in the event we do NOT already have a cutting die for the custom leather size desired, a $275.00 list cutting die charge will be added to the cost. The cutting die will be used to cut the leather precisely to fit your custom length handle. Customer Service will advise you on whether or not the additional die charge is required.

Shipments

- Ground freight will be pre-paid on all orders consisting of standard, non-custom items where the order value is over $9,900.00 list; all other shipments are F.O.B. Torrington, CT. Subject to this rule, shipments to Alaska, Hawaii, and points outside the United States will be freight prepaid, expense to the nearest continental port of embarkation.

- Purchaser assumes full risk for loss or damage in transit upon our delivery to the carrier. Claims for damage must be filed with the transportation company. Colonial Bronze retains the right to designate carriers and will not accept any additional handling or storage charges.
- In the event that the ship-to address supplied by you is incorrect and an Address Correction Fee is imposed by the common carrier, the correction fees will be billed to you separately.

Finish Care

- To properly clean your Colonial Bronze products crafted in a finish that is protected by Colonial Bronze's Finishes for Life™ protective coat, use a non-abrasive, damp cloth. A mild liquid dishwashing soap can be used if needed. Do not use abrasive cleansers: they will scratch the protective coating, damage its clarity, and void your tarnish-free warranty. Do not use any metal-polishing compounds (Flitz®, Brasso®, etc.)—the use of such products will damage the protective coating and void your warranty.
- To refresh the appearance of your Colonial Bronze products crafted in a finish that is unlacquered[1] we suggest using a soft, damp cloth for regular cleaning. If necessary, a mild liquid dishwashing soap can be applied. For enhancing the shine of these living finishes, we recommend using a non-abrasive polish such as Bar Keepers Friend® cleanser. Avoid using metal-polishing compounds such as Flitz® or Brasso®, as they may scratch the hand-worked surface.

Custom Leather Colors for Tanner's Craft®

- If leather other than our standard leathers is desired, a 15% minimum upcharge will be applied to each item. We will require the following information: (1) the color and source of the leather (i.e., Edelman, Garrett, etc.) and (2) the Tanner's Craft® item number and quantity needed. Once we review the feasibility of your selection, we will tell you how much leather you need to purchase. Please bear in mind that most leather suppliers have minimum purchase requirements of a half hide. We will use the requested leather to fabricate the custom hardware and endeavor to return as much of the remaining leather as possible in a usable form to your customer.

Expedited Manufacturing

- We have a team prepared to work additional hours beyond those normally scheduled. We can expedite your order for a 30% upcharge, with a minimum fee of $275.00 list. Please contact us to discuss your delivery requirements inasmuch as our ability to offer the expediting service is subject to our available resources.

Returned Goods Policy

- RGA must be requested within sixty (60) days of the invoice date for the product being returned.
- Upon request, a Return Goods Authorization (RGA) will be faxed or emailed to you. A printed copy of the RGA must accompany the goods being returned before credit can be issued.
- The RGA number must be written on the outside of the shipping box.
- All authorized returns, except for customer cancellations, must be sent via UPS using UPS return labels that Colonial Bronze will send you via your email address.
- Upon our receipt of items returned pursuant to an RGA, Colonial Bronze will issue you a credit.
- **Do NOT deduct credits to which you believe you are entitled from your payments of outstanding invoices. Doing so will delay proper crediting of your payments**.

[1] Colonial Bronze's unlacquered finishes are: Unlacquered Polished Brass (3A), Polished Nickel (14), Satin Nickel (15), Polished Chrome (26), and Satin Chrome (26D).

- **IMPORTANT: If merchandise is damaged in return shipment due to improper repackaging, no credit will be allowed, regardless of the reason for its return**.
- For returns other than defective merchandise, the following restock fees will apply:
  - Standard Colonial single-finish items - 25% restocking fee will be charged. Two-tone finish items - 50% restocking fee will apply.
  - Tanner's Craft® leather - 50% restocking fee will apply.
  - Josef Ruefelli collection - 50% restocking fee will apply.
- Items manufactured to your custom dimensional specifications cannot be returned.
- One-piece orders and samples cannot be returned.

Cancellation Policy

- Orders for items with custom dimensional specifications can only be cancelled within 48 hours from the time you receive confirmation of your order. For all other orders, cancellations received after 5 days will be subject to a 20% fabrication fee because the order will have already been released to the factory floor.
- Rushed orders cannot be canceled

Limited Lifetime Warranty Information

- All Colonial Bronze products produced in one or more of our finishes other than Unlacquered Polished Brass (3A) are protected by our Finishes for Life™ limited lifetime warranty.
- We warrant to the original purchaser that any product protected by our warranty will be free from tarnishing, discoloration, and pitting for the life of the product, subject to normal wear and tear. Scratches or other normal signs of use are not covered by this warranty. Should any product covered by the warranty fail, we will, at our option, repair or replace it.
- The use of metal polishes (Flitz®, Brasso®, etc.) will void the warranty because most metal polishes will damage the protective coating or even the metal itself, leaving the finish unprotected.
- The Finishes for Life™ warranty does not apply to use in an exterior setting, nor does it apply to any custom created finishes.
- Please note: Our warranty does not extend to repairing dings, scratches, or other physical imperfections that occur with normal use, or to failures caused by improper cleaning or maintenance. To ensure that dulling is not simply the result of grime deposits from an active kitchen, please clean a piece of the hardware with water and a gentle liquid soap like Dawn. If the product is still dull or damaged after cleaning, contact the showroom where the product was purchased. You may be asked to provide a sample of the parts for which coverage is requested, and we will make the determination whether the finish failure is a covered event.

NOTE: Our obligation under this warranty extends solely to the replacement or repair of the hardware at our option and does not extend to any costs incurred to remove or reinstall the product.

[2] No agent or representative of Colonial Bronze Company has the authority to waive, alter, or supplement this warranty; make any representation or warranty not contained herein; or extend this warranty to other than the original end user of the product.

Colonial Bronze is not liable for indirect, incidental, or consequential damage caused by the use of its products. This limitation includes, but is not limited to, the cost of removal and/or reinstallation, shipping damages, damages occurring during or after installation or removal, damages from improper cleaning or careless handling.

These warranties are given expressly and in place of all other expressed or implied warranties of merchantability or fitness for a particular purpose. Please note that some states do not allow limitations on incidental or consequential damages, so the above limitation may not apply. These warranties give you specific legal rights, and you may have other rights which vary from state to state.

If a different screw length is required, please specify length of screw when ordering

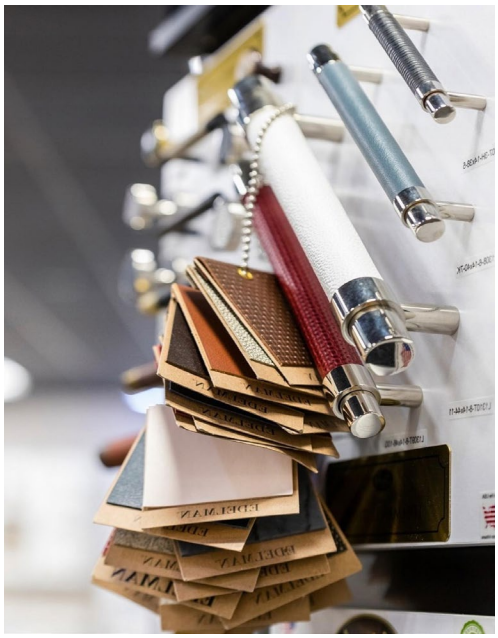

Cap screws offer an elegant way to finish the opposing side of a door pull. In this example, cap screws beautifully complete the inside of this shower door pull.

LEATHER COLORS AND APPEARANCE

PLEASE NOTE

- Leather is a natural product and variations in the appearance of the leather are both normal and to be expected.
- If your customer is concerned about normal color variations, we can arrange for a sample cutting for approval, or CFA, of the leather selected. If a CFA is requested, we will warrant that the leather that will be delivered will match the CFA sent to you. Please advise us as to the item and quantity to be ordered so we can ensure that we hold the necessary amount of material needed for the order.
- **If a CFA is NOT requested, the leather delivered will match the current die lot that we receive from the leather. We cannot be held responsible for variations, and such variations do not constitute a defect.**

LEATHER AND METAL FINISH CARE

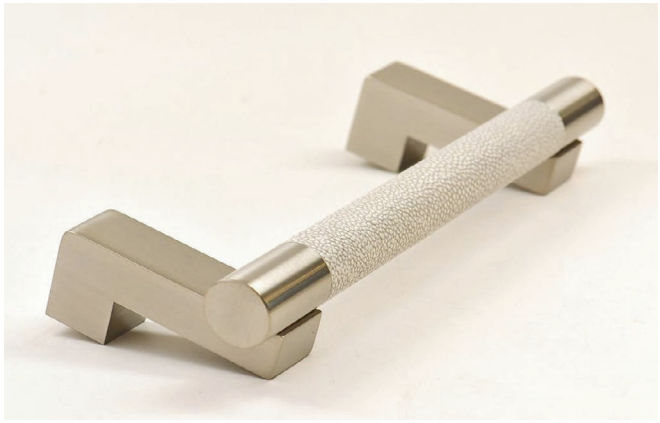

- Leather is not something that should be frequently cleaned. Leather will age with use and may darken over time.
- May be cleaned with proper leather cleaner that helps preserve the hide's natural oils as opposed to one that strips the natural oils off.
- Always test the cleaner of your choice in an inconspicuous area to ensure that it is compatible with your leather.
- See ***Terms and Conditions of Sale*** on page 9 for Metal Finish Warranty.

IMAGINE THE CUSTOM POSSIBILITIES

Colonial's custom manufacturing capabilities are always available to our customers.

That expertise, when combined with the beauty of Leather, makes for a truly creative result—a custom door handle wrapped in Shagreen Gris Ligero or an L828 handle wrapped in customer-supplied stingray skins.

Custom Shagreen Gris Ligero Leather Offset Front Door Pull

Custom Authentic Stingray Shagreen Leather Cabinet Door Pull

IS LEATHER A PRACTICAL CHOICE FOR THE KITCHEN?

WELL, EVOO DOESN'T FRIGHTEN OUR LEATHER...
(AND NEITHER DOES ANY OTHER KITCHEN OIL OR GREASE)

We rubbed our leathers with olive oil, butter, and other greasy kitchen condiments to test the assertion that it could stand up to the rigors of the kitchen, and every piece of leather came through these tests unfazed.

Being true skeptics, however, we wanted to really see how durable leather truly is, so we conducted an experiment:

We removed the standard chrome pull on our factory men's room door and replaced it with a pull wrapped in leather. We wanted to see how leather stood up to frequent use in an environment where ***grease, buffing compounds, machine oils*** and ***similar soils*** were the norm.

We are pleased to report that even after ***more than two years*** of use, the leather remained beautiful despite the soils, grease, and grime of 40 men who washed up in that room at least three times every day. The un-retouched before and after photos below speak for themselves.

DURABILITY TEST

HOW HARD DID WE WORK THE LEATHER?
JUST THE FACTS...

40 MALE EMPLOYEES x **3** TIMES EVERY DAY x **5** DAYS EVERY WEEK x **127** WEEKS SINCE INSTALLATION **=**

76,200 DUTY CYCLES

That equates to an average family of four's usage for ***17 years***

HOW DO WE FINISH THE SEAM ON OUR LEATHER PULLS?

In 2024, the Tanner's Craft engineering team enhanced the way we secure our fine leathers to our pulls.
During manufacturing, we carve a lengthwise slot long the bottom center of the leather-wrapped section. We then apply a strong adhesive over the entire area. Next, the leather is wrapped tightly around the pull, and the remaining edges are carefully tucked into the slot using a tool similar to a bench scraper.
To cover this cavity seam, we craft a matching finished brass strip and secure it over the slot. This strip not only conceals the seam but also adds a tailored accent to the pull.

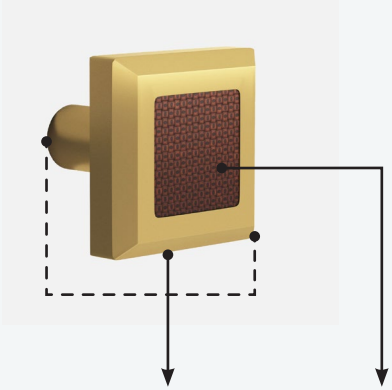

With the addition of this brass detail, you now have the option of orienting the position of this finished strip on the front of the pull as a decorative element. To select this option, simply use the prefix "LB" in place of "L" in the item number. For example:
L1360-5-4XL15 --> standard orientation, with the accent strip on the bottom of the leather-wrapped section, as shown above.
LB1360-5-4XL15 --> reverse orientation, with the accent strip on the front of the leather-wrapped section, as shown below.

For custom length Tanner's Craft® ***L270, L271, L272, L273, L275, L276, L460, and L711***'s, in the event we do ***NOT*** already have a cutting die for the custom size desired, a ***$275.00 list*** cutting die charge will be added to the cost.

The cutting die will be used to cut the leather precisely to fit your custom length handle. Customer Service will advise you whether the additional die charge is required.

Please note that the maximum length of leather we can provide is 64 inches.

See ***page 6*** for custom length Instructions.

Custom Leather Colors for Tanner's Craft®
If leather other than our standard leathers is desired, a 15% minimum upcharge will be applied to each item. We will require the following information: (1) the color and source of the leather (i.e., Edelman, Garrett, etc.) and (2) the Tanner's Craft® item number and quantity needed. Once we review the feasibility of your selection, we will tell you how much leather you need to purchase. Please bear in mind that most leather suppliers have minimum purchase requirements of a half hide. We will use the requested leather to fabricate the custom hardware and endeavor to return as much of the remaining leather as possible in a usable form to your customer.

Since ***1927,*** Colonial Bronze has been crafting fine cabinet and architectural hardware.

Unlike our competitors, we ***DON'T*** import finished hardware, ***never allowing*** another party to have any influence on the quality products that bear our name. We control every aspect of our production and the level of quality that goes into our products.

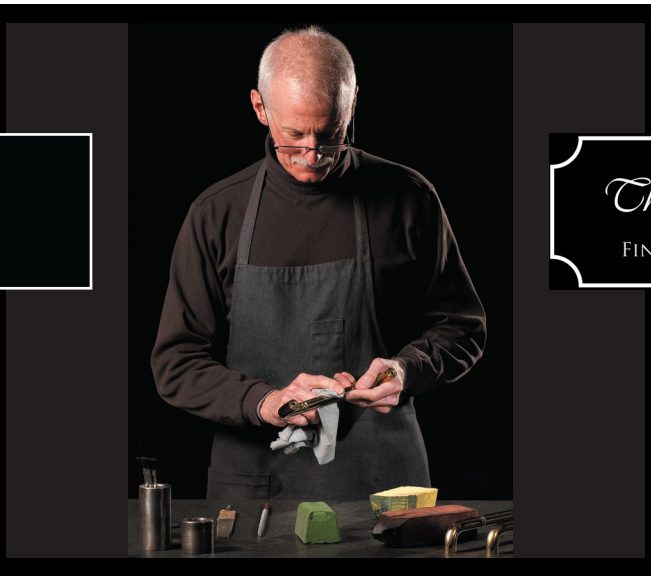

Selecting Colonial Bronze means selecting products hand made by **American craftspeople: the finest available *anywhere.***
